

**“Hand Up” Not A “Hand Out**

We partner with families and individuals to build skills and dignity; we offer hope and fuel dreams, and we foster brighter futures that strengthen our communities and pave the way for better educational outcomes, healthier living, financial security, and deeper connections with all sectors of our community.

**Education: We Advocate & Educate**

Our education program goes hand-in-hand with our home build and repair programs for which we are best known. In an effort to prepare people for financial stability and ultimately homeownership, Habitat offers a variety of free workshops:

- Overview of Habitat programs & affordable housing opportunities in the community
- Homeownership 101
- The Basics- budgeting and saving
- The in's and outs of your credit score and general banking services
- The mortgage process and local affordable housing options
- Savings & retirement planning, and investing basics

Workshops are generally 30 minutes to 1 hour, and can be tailored to meet the needs of your unique audience. For more information or to schedule a workshop, please contact (435) 658-1400 ext.1006 or [programs@habitat-utah.org](mailto:programs@habitat-utah.org)
