BECAUSE OF YOU

SUCCESS STORY

Mercedes & Rodrigo

Homeowners of one of the highly visible Marsac houses, Mercedes and Rodrigo came to town as seasonal workers and immediately felt the challenges of permanent housing. Ten years and two kids later, they have built a stable home life and are vibrant members of the community, including giving back to our local Habitat for Humanity.

LOOKING AHEAD

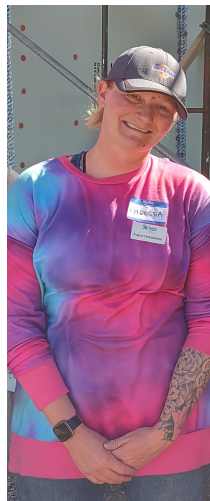

NEW FUTURE HOMEOWNERS

DONATE

Chelsea

Chelsea serves the community as a civil servant and stability is crucial for her eight-year-old son with a disability. Finding childcare to complete her 200 hours of sweat equity is a challenge, but one she is figuring out so she can provide a safe, permanent home for her son. Her son, in the meantime, has opened negotiations for adopting a dog.

Monica

Monica and her daughters have moved three times because of unaffordable rent. As a single mom and a teacher, being in the community she serves is essential to her classroom and family thriving. Once Monica begins paying an affordable mortgage she can also say yes to a school trip or second pair of sneakers.

Rose

Rose moved from foster home to foster home herself, so establishing roots for her three kids is a priority.
